In June 2022, Seabourn took delivery of our first expedition ship, Seabourn Venture, the first of two purpose-built, ultra-luxury expedition ships.

Seabourn Venture has been designed and built for diverse environments to PC6 Polar Class standards, providing an exceptional luxury small-ship experience along with world-class equipment that allows us to offer a broad range of expedition activities led by an expert 26-person team of scientists, scholars, naturalists, and more.

The ship offers complimentary Seabourn Expedition amenities such as Zodiac cruises, hikes, nature walks, scuba diving, and snorkeling, as well as complimentary excursions. Optional excursions

with kayaking and two custom-built submersibles at select destinations will also be on offer, providing incredible close-up views of wildlife, natural scenery and underwater wonders of the ocean.

Seabourn Venture features 132 luxurious oceanfront veranda suites and will take travellers to some of the world's remotest destinations, some of which are only accessible by ship. Sister ship Seabourn Pursuit will arrive in October 2023.
